

2018-06-14 Engage 2.21.6 - Printing Issue Bug Fix

Release date

June 14 at 12:36 pm EDT

Key features

This release fixes a printing issue reported by some users.

Details

- Yesterday (6/13/2018), some users reported errors when trying to print pages from Engage. The error was encountered when users tried to print pages that were cached by the browser. We fixed this issue in this release.
