

Page Layout

You can choose to read your EPUB course materials in different page layouts. To access the page layout menu in your EPUB, toggle the reading mode icon off. Once reading mode is turned off, the page layout menu icon

will appear in the bottom right footer of the window.

Select your preferred page layout from from the following options: single page, double page, and continuous.

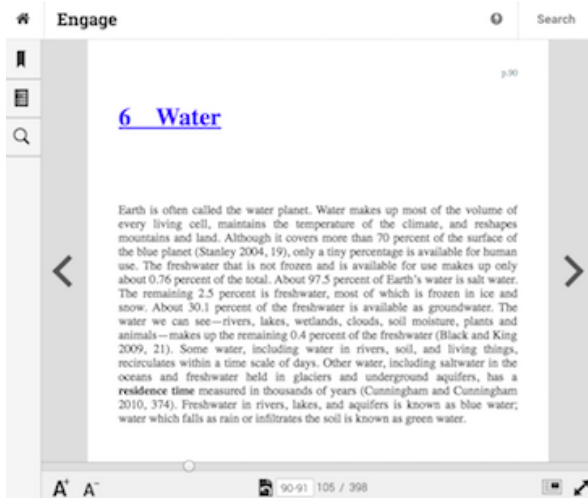

Single page

Select the single page layout icon

to apply a single page view of your EPUB materials.

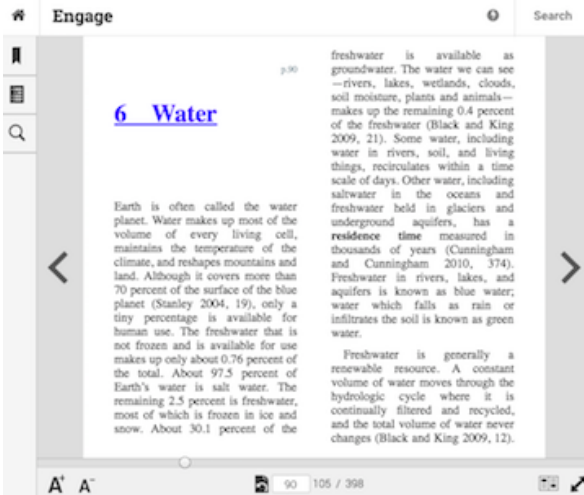

Double page

Select the double page layout icon

to apply a double page view of your EPUB materials.

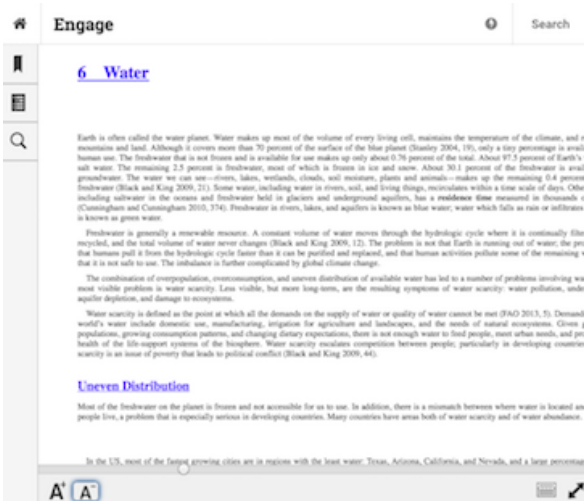

Continuous

Select the continuous page layout icon

to apply a continuous page view of your EPUB materials.

Note: While the continuous page layout is an available page layout option, it is not recommended. It does not present the best reading experience for users. The full page is not readable while in the continuous layout view.
